## Experience

### Frontend Developer --- Le Nostrane S.r.l. May 2016 – Oct 2023

*React, Nextjs, CSS Modules, REST API, Laravel-Livewire, PHP, SQL, TailwindCss, Wordpress, Roots/Sage, Figma, Illustrator*

- Led the design and development of an online catalog, ensuring a seamless and interactive user experience tailored for showcasing the company's offerings at international events. **[React/Next.js, CSS Modules, API]**
- Designed and implemented customized SAP/ERP solutions to address unique business needs, with a focus on optimizing supply chain operations and enhancing product information management. **[Laravel, Livewire, PHP, SQL, Tailwind CSS]**
- Designed and developed the company's official website, resulting in a remarkable 40% increase in coverage. This implementation ensures a compelling online presence and a user-friendly interface for a diverse global audience. **[PHP, Sage Laravel-based theme, Bootstrap, Wordpress]**
- Collaborated with developers, designers, and photographers to create wireframes, mockups, and prototypes, ensuring a user-centric approach to both user experience (UX) and user interface (UI) design. **[Figma, Illustrator]**
- Provided ongoing assistance, support, and maintenance to ensure the continued optimal performance of the implemented solutions.

### Frontend Developer --- National Association of Condo Managers – Jan 2021 – Jun 2021

Associazione N.A.C.A – Italy

*Laravel-Livewire, PHP, SQL, Bootstrap, Wordpress, Roots/Sage, Figma*

- Led the comprehensive design and information architecture of a dynamic website, ensuring an intuitive user experience (UX). Implemented modern responsive/adaptive design principles, CSS, HTML, and PHP for optimal visual appeal and functionality. **[PHP, Sage Laravel-based theme, Bootstrap, Wordpress]**
- Established a SQL database to efficiently manage professional credits for associates. **[SQL]**
- Developed a PHP component tailored to meet client requirements for a secured area with distinct roles catering to different member types. The solution allows for the confidential sharing of communications and files within the reserved area, ensuring streamlined collaboration and communication among various member categories. **[PHP, HTML, CSS, Javascript, Wordpress Plugin development]**
- Integrated external APIs to optimize registry consultation, elevating the website's functionality. **[PHP, HTML, CSS, Ajax]**

### Frontend Developer --- Ordine dei Dottori Commercialisti ed Esperti Contabili Oct 2017 – Feb 2018

di Reggio Calabria - Italy

*Laravel-Livewire, PHP, SQL, Bootstrap, Wordpress, Roots/Sage, Figma*

# Domenico Gangemi

Frontend Web Developer and UX Designer

Tel. (+39) 389 7982130 | VAT IT03085850802  
[domenico.gangemi@hotmail.it](mailto:domenico.gangemi@hotmail.it) | [domenicogangemi.com](http://domenicogangemi.com) | [LinkedIn](#)

- Developed a Laravel-based web app with an SQL database to manage educational credits, ensuring compliance with Italian regulations. Implemented authentication and roles for both admin and members. Additionally, created an API for consulting the members' registry on the organization's main website. **[Laravel, PHP, SQL, Bootstrap]**
- Managed the design and development of the main website, implementing a modern design and seamless navigation to cater to the specific needs of the professional community. **[PHP, Sage Laravel-based theme, Bootstrap, Wordpress]**
- Provided ongoing assistance, support, and maintenance to ensure the continued optimal performance of the implemented solutions.

## Frontend Developer Consultant

2012 - Present

Over several years, I have successfully collaborated with digital agencies on web development and service management projects. Key highlights of my experience include:

- Led client meetings to understand unique needs, resulting in the creation of tailored web development projects.
- Identified suitable infrastructures for websites and delineated technical requirements, proposing optimal solutions within budget constraints. Contributed to the enhancement of business processes through strategic software and application utilization.
- Planned projects meticulously, coordinating with external partners and establishing realistic timelines for seamless execution.
- Oversaw projects comprehensively, from the design phase to development (coding), ensuring a cohesive and efficient workflow, and further extending to the online deployment of the application.
- Delivered continuous assistance and maintenance post-project completion, ensuring sustained operational efficiency.

## Language Skills

Italian, english, portuguese, spanish.
